HIGH CONCENTRATION

Cell-Free Professional Solution.

Be among the first to experience the latest breakthrough in regenerative aesthetics, featuring highly concentrated formulations and maximum efficacy achieved through premium-sourced ingredients and a fully integrated, in-house cultivation and production process.

"puriMAX platform is the newest and most standardized technology for isolation and purification of highly effective exosomes."

Lee KWA, Chan LKW, et al. Clinical Applications of Exosomes : A Critical Review. Int J Mol Sci. 2024 Jul 16;25(14):7794.

A Vial for your Youth.

Exosomes help your cells maintain their vitality, resulting in a visibly more youthful and radiant look.

What is ADMSCs-EXOs?

Exosomes from Adipose-Derived Mesenchymal Stem Cells offer a promising and safe approach due to higher biocompatibility and accessibility. These exosomes have the ability to circulate in the body for extended periods with higher penetration ability. In combination, they promote strengthening the activity of fibroblasts.

* Fibroblasts represent the major skin type in the dermis, where they have a key role in producing and maintaining the extracellular connective tissue that is crucial to maintaining the youthful appearance of skin.

Selection of Highly Qualified Donor Profile

Rediscover the Safe and True Exosomes.

Opting for the highest safety and efficacy ratio, our production pipeline allows us to ensure the utmost safety by selecting the youngest and healthiest donors guaranteeing the quality and consistency of our exosomes.

QR Tracking via CtrlSOURCE CODES™

Our Unique Tracking Process empowers users to verify both the authenticity and safety standards of our products.

Lot-to-Lot Verification, facilitated by our Special Tracking Process on the designated landing page, offers accessibility to comprehensive information regarding donors' medical backgrounds and the date and time of cell harvesting & culturing.

This meticulous tracing process ensures the utmost standards of safety, consistency, and customer satisfaction.
