BELLAZZARE

PREMIUM LIPOBELLUM SOLUTION

Lipolysis Solution for
Face and Body Contouring Treatment.

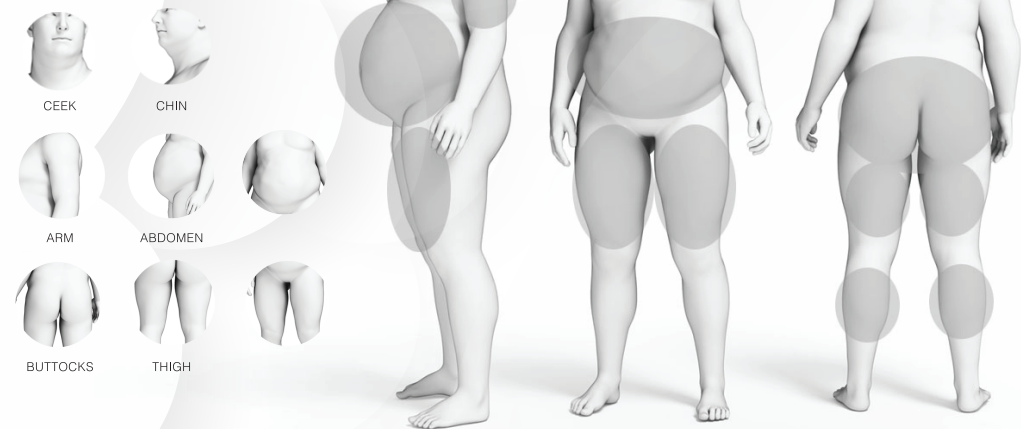

PRODUCT DISCRIPTION

BELLAZZARE is an injectable solution designed for face and body contouring treatment. **BELLAZZARE** consists of natural ingredients such as Fucus Vesiculosus Extract, Betula Alba Leaf Extract, Juglans Regia (Walnut) Seed Extract, Ophiopogon Japonicus Root Extract, Aesculus Hippocastanum (Horse Chestnut) Extract and many more. Our use of the highest quality natural ingredients overcome side-effects of PPC Injections (widely used in Lipo solutions), which include heat, scarring, permanent pigmentation, and pain.

Comparatively, **BELLAZZARE** requires a much simpler and effective procedure than that of Liposuction.

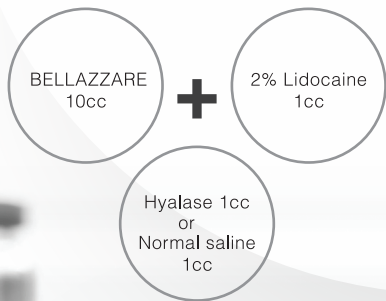

● INDICATION

BELLAZZARE can be used to combat fat on a patient's cheek, chin, abdomen, arm, buttocks, thigh and other feasible areas to destruct fat cells.

● MIXING METHOD

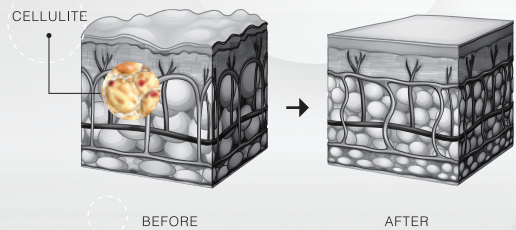

Before using the Bellazzare, mix 10cc Bellazzare with 1cc of 2% Lidocaine, 1cc of Normal saline and/or 1cc Hyalase (hyaluronidase 1500 iu).

● PROTOCOL [Face / Body]

Part	Areas	Indication	Volume or Treatment	Injection Volume	Injection Interval	Total Treatment	Injection Depth

		Outer Thigh					
Calf		calf	50 - 100cc	0.2 - 0.5cc	0.5 - 1.0cm	Total 3 times / every 20days	3 - 13mm

● MECHANISM OF ACTION

The main active ingredients in BELLAZZARE (Fucus Vesiculosus Extract, Betula Alba Leaf Extract, Juglans Regia Seed Extract, Ophiopogon Japonicus Root Extract, Aesculus Hippocastanum Extract) all work together to decompose, dissolve and combust body fat effectively without resulting in severe swelling in treated areas.
